OUR BUSINESS MODEL, KNOW-HOW & CAPABILITIES

Our holistic approach is to generate value for our business partners - based on reliable & trustworthy relationships.

Our experienced team works based on the latest engineering standards and technologies to deliver effective and innovative solutions.

Project Services

- ✓ Contract management
- ✓ Planning, Financial Analysis, Cost Controlling & Risk management
- ✓ Management Consulting
- ✓ Technical Know-How & Licencing
- ✓ Engineering (conceptual to detailed) & FEED (Front-End Engineering)
- ✓ Implementation and supervision

Project Development

- ✓ Market Analysis
- ✓ Technical & Economical Evaluation
- ✓ Conceptual & Feasibility Studies
- ✓ Project Financing & Cost Re-Engineering
- ✓ R&D

MGET PROJECTS OF RECENT YEARS

1. EPC contractor – 3x8000 m3/day, BWRO desalination plant
2. EPC contractor – 2x5000 m3/day ,BWRO desalination plant
3. EPC contractor – 5000m3/day lamella clarifier pretreatment plant
4. EP contractor – traveling band & cable operated bar screens for 150,000m3/day sea water intake
5. EP contractor – 2x(2*3000 m3/day) sea water RO desalinate plant
6. EP contractor - BWRO (2*1500 m3/day brackish water RO system)
7. EP contractor – 15m3/day HCC Doha Sewage Treatment Plant
8. EP contractor – Grab bar screens and traveling band screen for 50,000m3/day sea water intake
9. Supply – 2400mm micro tunneling machine Qatar sewage Asghal
10. Sourcing & Supply - instrument, PSV and ESD valve for power plant
11. Sourcing & Supply - 24000 m3/hr SWRO package, 2300 qty. LG SW-400R Membrane & Victaulic Coupling
12. Sourcing & Supply – 6000 m3hr SWRO Package Equipment piping, valving
13. Sourcing & Supply - Madinat Mawater (Barwa Motor city) STP, Qatar

14. Eng. Service - MADINAT MAWATER(BARWA MOTOR CITY) STP, Qatar
15. Eng. service - MBR Plant For A Municipality In Northeast USA
16. Eng. service - Wastewater & Sanitary and Reuse System
17. Eng. service – steel plant waste treatment plant & reuse water system
18. Eng. service - steel complex wastewater treatment plant system
19. Eng. service – copper complex water and wastewater system
20. Eng. services – developing and providing of tender documents

Projects in Oil and Gas & Petrochemical industry

21. EP contractor - SWRO 8400 m3/day containerized RO
22. Eng. service – Wastewater, Sanitary & Reuse System for Oil refinery
23. Eng. Service - Utility unit for 5 Gas field plants: Demineralising, Potable water, Chemical dosing units, Waste-water treatment, Fire-fighting pump station, Fuel oil storage tank & transferring pump station, Sea water intake pump station,

PORTUGAL VISIT – TARGETS AND EXPECTATIONS

- Build up contacts for development of future partnerships => for coverage of local & regional business
- Explore business options for MGET in PT market
- Check possibilities to set up PT as a regional hub for MGET business
 - ➔ Understand market structures and biz culture
 - ➔ Understand needs of the local industry
 - ➔ Meet people and network
 - ➔ Understand other companies experience in accessing PT market

...MGET Mission

**“OUR MISSION IS TO PROVIDE SOLUTIONS FOR OUR
BUSINESS PARTER’S CLEAN WATER AND UTILITY’S NEEDS
- THROUGH RELIABLE AND EFFECTIVE PROJECT
IMPLEMENTATION”**
