# Projekt Corporate Group

Energie-Geschäftsreise Kap Verde 2025

# At a glance

---

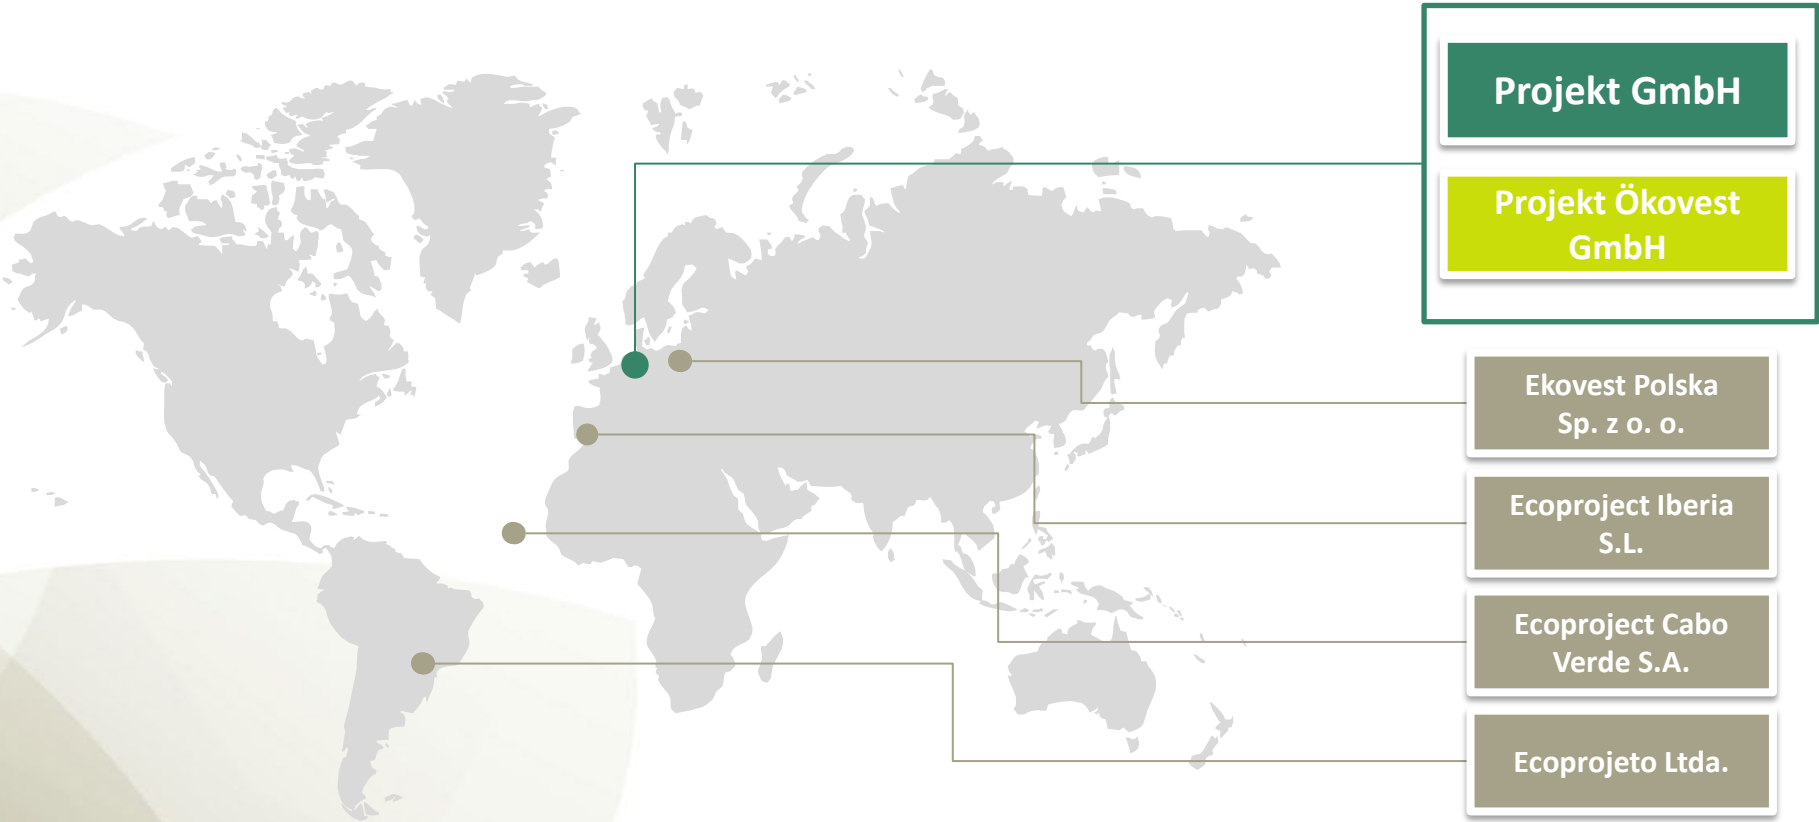

**Projekt Corporate Group** masters in the fields of **wind and photovoltaic energy** through different business units unified under the same roof. In addition, complete **smart integrated systems** are executed through storage (**batteries and hydrogen**) and energy distribution solutions (**e-chargers**), all controlled and optimized through our own **Energy Management System**.

With more than **30 years of experience**, we are pioneers in the development of renewable energy projects.

Our expertise includes the **Design, Engineering, Procurement, Construction** and **Financing** of renewable energy projects.

Our goal is to promote a **clean and sustainable** energy supply.

# International reach

# Our expertise

Onshore Wind Energy and  
Prototype testing

Offshore Wind Energy

Photovoltaic Energy

P2X – Hydrogen / Batteries

Operation and maintenance

Condition Monitoring

Due Diligence

Sector Coupling / Smart City

# Projekt does it all

We have experts in each of the stages to guarantee the success of every project

**Feasibility Study**  
Energy potential research and economic viability study

**Engineering**

Evaluation and design of the best suiting renewable energy plant

**Procurement**

Specification, selection, contracting and controlling

**Construction**

Execution of the designed renewable energy plant

**Commissioning**  
Set-up and connection of the installation to the grid

# Energy portfolio

PV and wind energy

**656** MW installed  
**> 1.200** MW in development

# Projekt and GTEK

One stop shop for renewable energy in Cape Verde

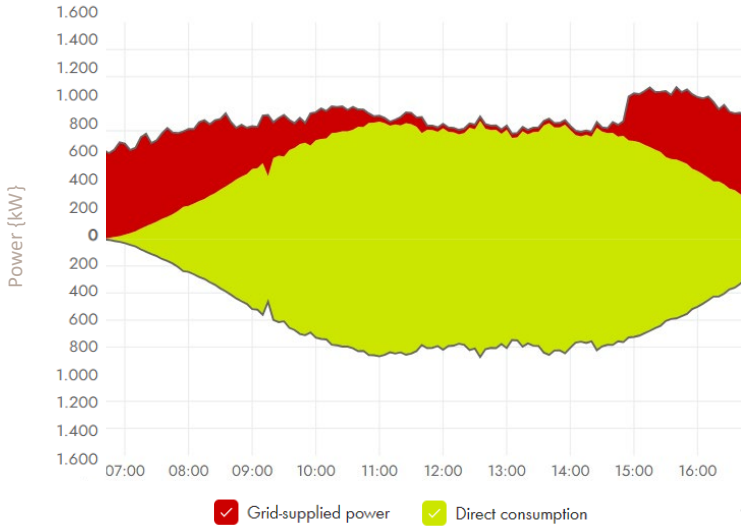

# Renewable autarky – Cape Verde

Frescomar Group - Mindelo

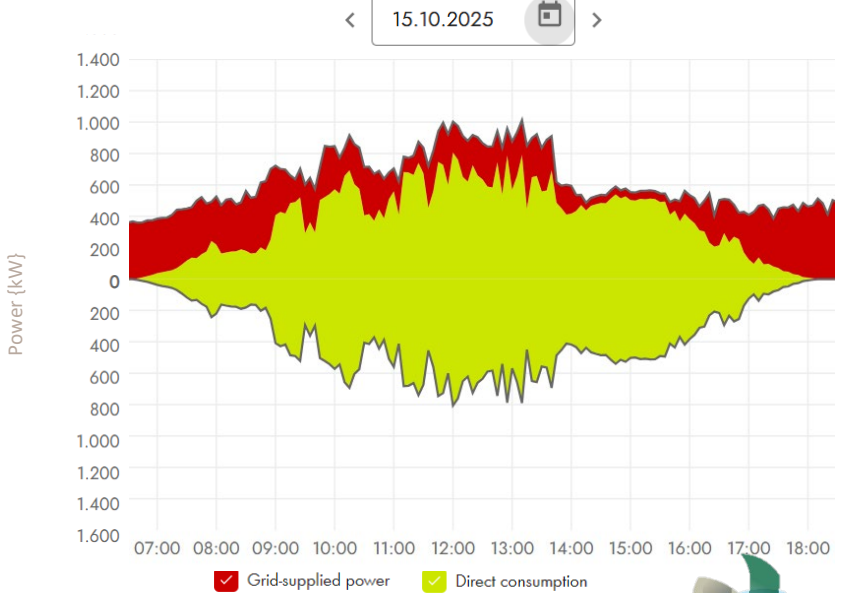

Energy production  
2024  
1.576.362 kWh

< 15.10.2025 >

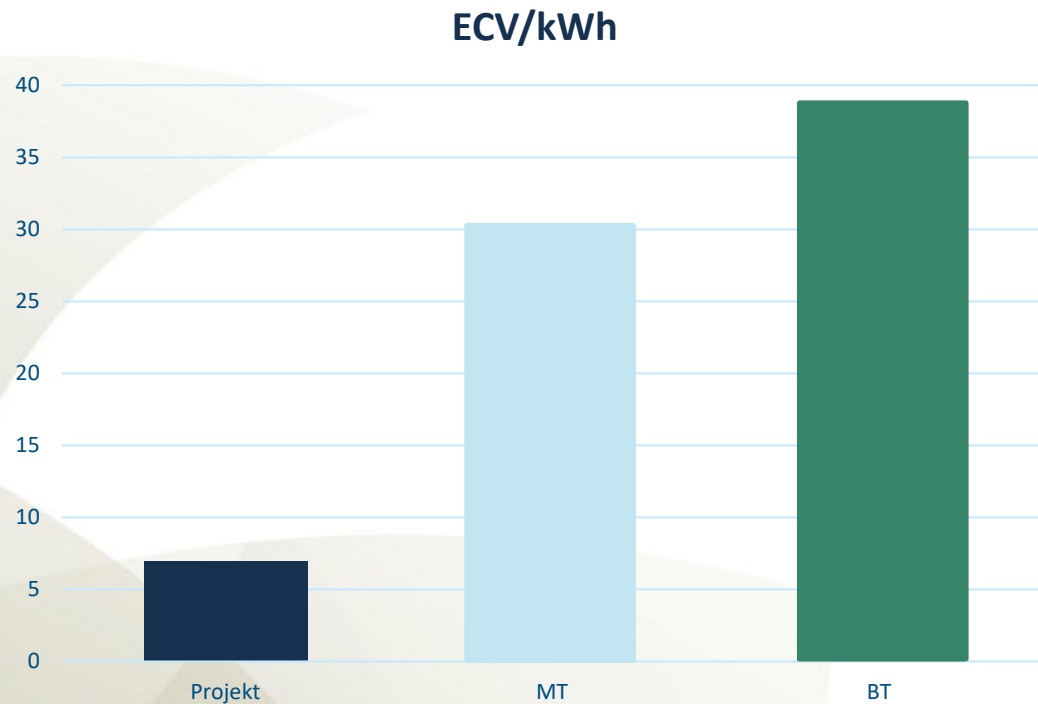

# Renewable autarky – Cape Verde

Robinson Cape Verde - Sal

# Renewable autarky – Cape Verde

The benefits we offer

Fonte: ARME (última atualização julho 2024)

- 1 Great energy cost reduction
- 2 Long term price stability
- 3 Investment 0 through our leasing
- 4 Environmentally friendly energy

# Renewable autarky – Cape Verde

The future

Central renewable energy production

Energy storage

Consumption and decentralized renewable energy production

# Why Projekt?

The advantages of trusting us

# Projekt Corporate Group
